VINES Dead arm, Erinose mite (budmite) and Anthracnose	12.00 Litre	Dormant spray. Apply 3 weeks before budswell.

APPLICATION

An aqueous solution fungi-, acari- insecticide for the control of fungal diseases and pesta in crops as indicated.
 Active ingredient: Polysulphide sulphur.....320g/l

WARNINGS - Handle with care. Skin, eye and mucous membrane irritant. Keep out of reach of children, uninformed persons and animals. Store away from food and feedstuffs. As LIME SULPHUR is inclined to cause burning when applied on cool, cloudy days as well as very hot days. It should not be applied on cloudy days as well as very hot days. It should not be applied on cloudy days nor when temperatures are in the vicinity of 30°C. LIME SULPHUR should not be used after green tip stage on Golden delicious, Ohenimuri and Granny Smith apples and Josephine and Doyenne Du Comice pears. Where LIME SULPHUR is used on citrus do not mix any oil spray within 4 weeks after applications of LIME SULPHUR.

PRECAUTIONS – Do not inhale spray mist and avoid contact with skin and eyes. Wear protective gloves and face shield when handling concentrate. Wash contaminated clothing daily. Do not eat, drink or smoke whilst applying or before washing hands and face. Avoid spray drift onto other crops, grazing, rivers, dams and areas not under treatment. Clean application equipment after use and dispose of wash water where it will not contaminate crops, grazing, rivers and dams. Invert the empty container over the spray or mixing tank to allow to drain for at least 30 seconds after the flow has slowed down to a drip. Thereafter rinse the container three times with a volume of water equal to a minimum of 10% of that of the container. Add the risings to the contents of the spray tank before destroying the container. Destroy empty container and do not re-use for any other purposes.
